

Medical Excellence Treatment

WHO IS PROF. DR. YUSUF KALKO?

Prof. Dr. Yusuf Kalko graduated from Akdeniz University Medical Faculty, Antalya in 1994 and entitled to Cardiovasular Specialist from Istanbul University, Istanbul Medical Faculty in 2001. He has become Professor in cardiovascular surgery in 2015.

AN INNOVATIVE MODEL IN HEALTH TRAVEL

Turkey is becoming a shining star in medical technologies and state of art treatment in the world. Under the framework of Sanberk Group and headed by Prof. Dr. Yusuf Kalko, established "DR. KALKO MEDICAL TOURISM" brand has been implemented with an innovative model that will open new horizons for the health tourism sector.

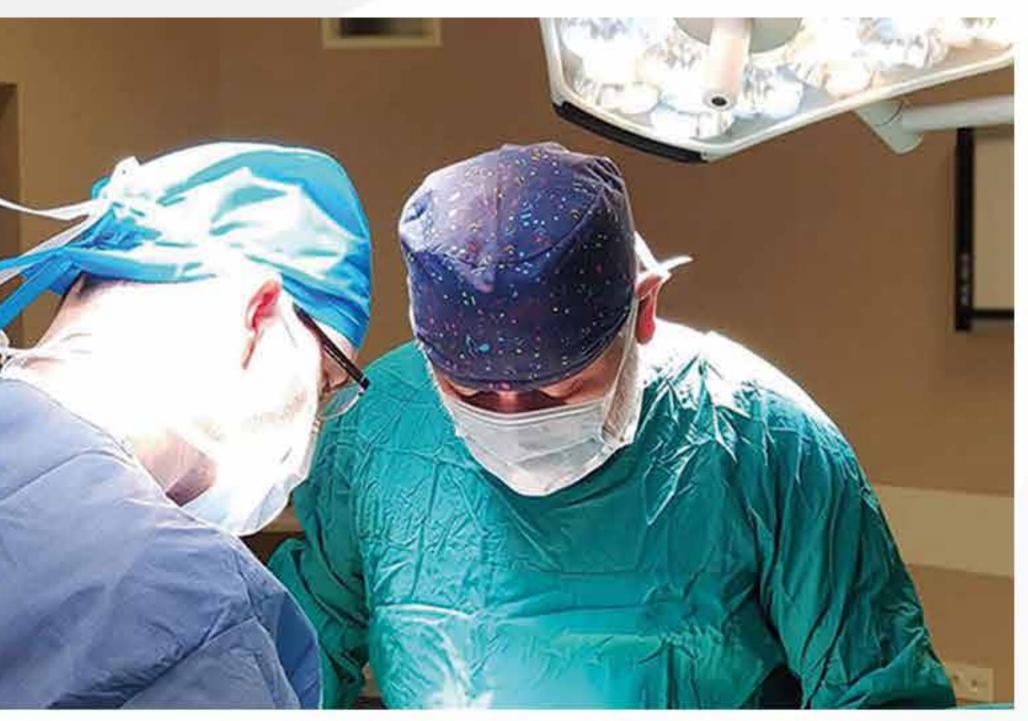

WE CONSIDER ALL DETAILS 24/7 FOR YOUR HEALTH

We achieved firsts in the medical literature with the stroke surgery method and hybrid methods we applied especially for carotid artery patients. Therefore, we have done what hasn't been done in the world about vascular surgery and we have taken a very good way in this field. With the Vascular Health and Life Center established under my chairmanship, we gathered departments such as stroke surgery, diabetic foot surgery, varicose veins treatment, congenital vascular anomalies and minimally invasive vascular surgery. We are performing very important vascular surgeries with a giant staff.

Turkey is in a very important position in the field of health tourism in the world. Patient comes for many different branches. We are bringing together patients and the best doctors in Turkey and we aim to provide treatment with the latest and advanced technologies in the best and most equipped hospitals. With the principle of continuous 24/7 service, we have been thinking every detail for the patient satisfaction.

WE HAVE STARTED WITH INTERNATIONAL STANDARDS AND CERTIFICATES

You want to know whom you entrust your health to in a country you don't know. You also want to know what your rights are, how they will protect you in a negative situation. With this in mind, we have developed our service plan accordingly. First of all, we have started with an international certificate. We have been implementing insurance which covers from flight delays and cancelations up to surgical complications which the travellers may encounter. We have also international offices in several locations make us liable also in the European countries.

The Importance of Turkey in Medical Tourism

HEALTH TOURISM IN TURKEY

Health tourism, i.e. medical tourism, is a sector that keeps growing both globally and locally in 2000s. Turkey ranked amongst the best countries in the world, in health tourism particularly over the last decade.

This certainly depends on a number of factors. First of all, the fact that healthcare costs in Turkey are more affordable compared to other countries is one of the major factors. Geographical proximity to both the Middle East and European Countries is another factor which brings Turkey forwards in the Medical tourism. Almost all flag carriers and low cost carriers offer an easy access to all destinations also highlight Turkey in the Medical Tourism. Sufficient number of knowledgeable, educated doctors and state-of-the art technologies owned by Turkey are yet another factor that increases preferability.

Also, the fact that some diseases, excluded from the coverage of insurance systems, are treated in Turkey at affordable costs and with superior quality, increases the preferance towards Turkey.
